## FR150A Series Multifunctional Inverter

FRECON ELECTRIC (SHENZHEN) CO.,LTD.

## FR150A Series Summary

FR150A series multifunctional Inverter is a product developed on the latest technology platform of FRECON, with advanced control modes for high torque, high precision, high reliability, and wide-speed drive. The FR150A features multifunctional control such as built-in PID, simple PLC, programmable input and output terminals, RS485, analog input and output etc, ideal for equipment matching, engineering reconstruction, automation control and other special industry applications.

### Suitable for Several Types of Motor

- Standard application wiring

- Special application wiring

(※ Please contact factory if using below application wiring)

### Leading Technology Platform and Optimized Structural Design

- Latest technology platform
- More compact design for saving installation space, maximum volume reduced by 50%

### Common DC Bus

- Multiple FR150A units can be connected in parallel to share regenerative braking energy, thus the power of braking resistor can be reduced or cancelled.

### Rich Protection Functions

- Comprehensive protection to ensure reliable operation

### Built-in RS 485 Communication (Modbus)

- RS 485 terminals, support standard Modbus RTU communication for system integration

### Convenient Debugging

- Powerful background software

Short-cut menu

- Common parameters setting rapidly to save customer's time
- Customized application macro according to industry demand

## Technical Parameters

	Item	Specification
<b>Input Power</b>	Rated input voltage (V)	Single phase 220 V (-15%~+20%) ;Three phase 380 V (-15%~+30%)
	Rated input frequency (Hz)	50Hz/60Hz, ±5%
<b>Output Power</b>	Rated output voltage (V)	0~Rated input voltage, Error<±3
	Rated output frequency(Hz)	0.00~600.00 Hz, Units: 0.01Hz
<b>Control Characteristic</b>	Control mode	V/F control ; Sensor-less vector control 1 ; Sensor-less vector control 2
	Speed range	1:50 (V/F control) ; 1:100(sensor-less vector control 1) ;1:200(sensor-less vector control 2)
	Speed accuracy	±0.5% (V/F control) ; ±0.2 %(sensor-less vector control 1 & 2)
	Speed fluctuation	±0.3% (sensor-less vector control 1 & 2)
	Torque response	<10ms (sensor-less vector control 1&2)
	Starting torque	0.5Hz: 180% (V/Fcontrol, sensor-less vector control 1) 0.25Hz:180 %(sensor-less vectorcontrol 2)
<b>Basic functions</b>	Carrier frequency	0.7kHz~16kHz
	Overload capability	150% Rated current 60s ; 180% Rated current 10s ; 200% Rated current 1s
	Torque boost	Automatic torque boost ; Manual torque boost 0.1%~30.0%
	V/F curve	Three ways: Straight ; Multi-point type ; N Th-type V/F curve
	Acceleration and deceleration curve	Line or curve acceleration and deceleration mode Four kinds of acceleration and deceleration time, Ramp time range: 0.0~6000.0s
	DC brake	DC brake start frequency: 0.00~600.00Hz DC brake time:0.0s~10.0s; DC brake current : 0.0%~150.0 %
<b>Run</b>	Command source	The control panel, control terminal, serial communication port given
	Frequency given	8 kinds of frequency sources
	Input terminal	5 switch input terminals, one way to make high-speed pulse input 2-channel analog inputs, including 1-channel voltage input,1-channel voltage and current options
	Output terminal	1 switch output terminal,1 relay output terminal,1 analog output terminal
<b>Featured functions</b>	Parameter copy, parameter backup, flexible parameter displayed & hidden. Reliable speed search started.Timing control, fixed length control, count function, three faults recorded, overvoltage stall protection, undervoltage stall protection, restart upon power loss, Motor thermal protection, Wobble frequency control, High-precision torque	
<b>Protection function</b>	Provide fault protection function: overcurrent, overvoltage, undervoltage, overtemperature, overload protection etc .	
<b>Environment</b>	Place of operation	Indoors, no direct sunlight, free from dust, corrosive gases, flammable gases, oil mist, water vapor, water drop and salt, etc.
	Altitude	0~2000m De-rate 1 % for every 100m when the altitude is above 1000 meters
	Ambient temperature	-10°C~50°C
<b>Others</b>	Efficiency	Rated power; ≥93%
	Installation	Wall-mounted or Flange mounting
	IP grade	IP20
	Cooling method	Fan cooled
